

Collection Signature

Ready-to-use Lighting

The new IDYLINE & URDIA ranges are the result of in-depth studies allowing JMS Design to develop products with pure and sober lines in a Bio-Contemporary approach to the embellishment of our towns.

URDIA associated with RO'DIA responds with force, discretion and estheticism to the demands of local authorities concerning the anti-vandalism of inspection panels on public lighting poles.

These all aluminum products contribute to sustainable development.
